

FOR IMMEDIATE RELEASE

D-BOX Technologies Adds More Motion to Hollywood Movie Theatre

*Mann Chinese 6 in Hollywood Installs Additional Motion Seating to Meet Demand,
Prepares for the Summer Blockbusters*

Longueuil, Québec – (June 29, 2009) -- D-BOX Technologies Inc. (DBO.A on the TSX Venture Exchange), a leader in innovative motion technology for the entertainment industry has announced the installation of 15 additional motion seats at the Mann Chinese 6 Theatre in Hollywood, California.

In an effort to meet the high demand and prepare for the active summer movie season, the Mann Chinese 6 Theatre, which was the first movie theatre to unveil D-BOX's Motion technology in April 09, is installing an additional row of Motion Systems in auditorium six of its theatre, bringing the total number of seats to 30.

Adding a completely new dimension to movie viewing, D-BOX's motion-enhanced seats provide a realistic, immersive experience utilizing refined, subtle movements that work in perfect sync with the onscreen action. Typically taking more than 300 hours of labor, D-BOX Motion Designers custom code each movie, frame by frame, designing an unmatched moviegoing event for audiences.

"The Mann Theatre in Hollywood was one of the first test markets for D-BOX's Motion technology," remarked Claude Mc Master, president and chief executive officer for D-BOX Technologies. "It is thrilling to see the momentum and learn of the overwhelming response of movie patrons both in California and other markets. We are continuing to expand and launch new theatre sites including the latest two, Canada and Las Vegas, and anticipate similar successes there as well."

Mr. Peter Dobson CEO of Mann Theatres added: "We are very excited to be adding a further 15 D-Box seats at the Chinese. The expectation of demand on our next presentation "Harry Potter and the Half Blood Prince" is likely to exceed the sell out demand of our previous 2 movies. "

D-BOX is currently in five U.S cinemas - the Mann Chinese 6 in Hollywood, California; UltraStar Cinemas in Surprise Point, Arizona; Mall of America Theatres in Bloomington, Minnesota; Galaxy Highland Theatres in Austin, Texas and most recently, Galaxy Cannery in Las Vegas, Nevada and the first in Canada, Cineplex Odeon Queensway, These two latest locations are scheduled to debut to the public this summer.

ABOUT D-BOX

D-BOX Technologies designs and manufactures leading edge high-technology motion systems mainly suited to the needs of the entertainment industry. With its unique, patented technology, D-BOX MOTION CODE™ uses motion codes specifically programmed for each film, TV program or video game, which are sent to a motion generating system integrated within either a platform or a seat. The resulting motion is perfectly synchronized with all onscreen action, creating an unmatched realistic, immersive experience. To date, D-BOX MOTION CODE™ is available on more than 850 titles. Accordingly, many prominent Hollywood studios have started embedding D-BOX MOTION CODE™ on selected high definition Blu-ray™ releases. By reaching agreements with the leaders of

both the motion picture and gaming industries, D-BOX's award-winning motion technology is gradually proving itself as a new global standard in the entertainment world.

D-BOX is a publicly traded company listed on the TSX Venture exchange under the symbol DBO.A. For further information please see www.d-box.com. D-BOX(R) is a registered trademark and D-BOX MOTION CODE is a trademark of D-BOX Technologies. Other names are for informational purposes only and may be trademarks of their respective owners.
