

FOR IMMEDIATE RELEASE

**D-BOX Technologies Announces First Film with Lionsgate®,
FROM PARIS WITH LOVE**

Longueuil, Québec, (January 21, 2010) – D-BOX Technologies Inc. (DBO.A on the TSX Venture Exchange), a leader in innovative motion technology for the entertainment industry, has announced its first film with Lionsgate® to feature its revolutionary motion-enhanced seating technology with the studio's new motion picture release, *From Paris With Love*, opening in theatres February 5.

"This is a great start to the new year," said Claude Mc Master, President and Chief Executive Officer of D-BOX Technologies. "It's our first film with Lionsgate and already our second movie announcement this year and we anticipate the momentum to continue to increase in the months ahead."

From Paris With Love finds a personal aide to the U.S. Ambassador in France, James Reese (Jonathan Rhys Meyers) with an enviable life in Paris and a beautiful French girlfriend. His real passion however is his side job as a low-level operative for the CIA. All James wants is to become a bona fide agent and see some real action. So when he's offered his first senior-level assignment, he can't believe his good luck – until he meets his new partner, special agent Charlie Wax (John Travolta). A trigger-happy, wisecracking, loose cannon who's been sent to Paris to stop a terrorist attack, Wax leads James on a white-knuckle shooting spree through the Parisian underworld that has James praying for his desk job. But when James discovers he's a target of the same crime ring they're trying to bust, he realizes there's no turning back...and that Wax himself might be his only hope for making it through the next forty-eight hours alive.

Starring John Travolta, Jonathan Rhys Meyers, Kasia Smutniak and Richard Durden, FROM PARIS WITH LOVE is directed by Pierre Morel (TAKEN) and produced by Virginie Besson-Silla.

About D-BOX

D-BOX Technologies designs and manufactures leading edge high-technology motion systems mainly suited to the needs of the entertainment industry.

With its unique, patented technology, D-BOX Motion Code™ uses motion effects specifically programmed for each film, TV program or video game, which are sent to a motion generating system integrated within either a platform or a seat. The resulting motion is perfectly synchronised with all onscreen action, creating an unmatched realistic, immersive experience. To date, D-BOX Motion Code™ is available on more than 850 titles. Accordingly, many prominent Hollywood studios have started embedding D-BOX Motion Code™ on selected high definition Blu-ray™ releases. By reaching agreements with the leaders of both the motion picture and gaming industries, D-BOX's award-winning motion technology is gradually proving itself as a new global standard in the entertainment world.

D-BOX is a publicly traded company listed on the TSX Venture exchange under the symbol DBO.A. For further information please see www.d-box.com.
