

**D-BOX IS OPENING OFFICE AT DELUXE'S BURBANK CALIFORNIA FACILITY  
TO CREATE D-BOX MOTION CODE™ FOR THEATRICAL MOVIE RELEASES**

*Closer proximity to studios will address content security concerns*

Longueuil, (Québec), March 2, 2009 -- D-BOX Technologies Inc. (TSX-V: DBO.A), a leader in motion technology for the entertainment industry, announced today the opening of an office within the Deluxe Digital Studios operations in Burbank, California. This new location will allow D-BOX to be closer to the major Hollywood studios providing them with the required security infrastructure for supplying embedded content in real-time for future theatrical releases.

This announcement comes as D-BOX is preparing to launch a first worldwide theatrical feature incorporating D-BOX Motion Code technology at the Mann Chinese 6 Theatre located in Los Angeles and is negotiating with other exhibitors to follow suit.

D-BOX has already installed six D-BOX MOTION CODE™ equipped seats at Deluxe Digital Studios that are available for demonstrations to studio executives and other members of the industry.

"We are excited to be establishing operations in the filmmaking capital of the world," stated Claude Mc Master, president and Chief Executive Officer of D-BOX technologies. "Considering that Deluxe is already one of the main service providers for the movie studios and has the necessary security in place, we look forward to working closely with them as installations come on line."

"Having D-BOX's unique motion editing workstation within our premises clearly demonstrates D-BOX's commitment to the film industry and their increasing visibility," added Rob Seidel, Executive Vice-President and General Manager of Deluxe Digital Studios. "We view this step as a natural evolution in the immersive viewing experience for theatrical and home entertainment."

**About D-BOX**

D-BOX Technologies designs and manufactures leading edge high technology motion systems mainly suited to the needs of the entertainment industry. With its unique, patented technology, D-BOX Motion Code™ uses motion codes specifically programmed for each film, TV program or video game, which are sent to a motion generating system integrated within either a platform or a seat. The resulting motion is perfectly synchronised with all onscreen action, creating an unmatched realistic, immersive experience. To date, D-BOX MOTION CODE™ is available on more than 850 titles. Accordingly, Hollywood studios have started embedding D-BOX MOTION CODE™ on many Blu-ray™ format releases. By reaching agreements with the leaders of both the motion picture and gaming industries, D-BOX's award-winning motion technology is gradually proving itself as a new global standard in the entertainment world.

D-BOX is a publicly traded company listed on the TSX Venture exchange under the symbol DBO.a. For further information please see [www.D-BOX.com](http://www.D-BOX.com)
