D-BOX Motion-enhanced Theatre Seats Debut at Two New Theatres with Release of Warner Bros. Pictures' *Terminator Salvation* May 21

World's First Motion Seat Technology Now Moves Audiences in Minnesota and Texas

Longueuil, Québec – May 20, 2009 – D-BOX Technologies Inc. (DBO.A on the TSX Venture Exchange) continues to move audiences in the U.S. with its innovative motion-enhanced theatre seats May 21 with the release of Warner Bros. Pictures' *Terminator Salvation*.

Thrill-seekers and movie fans can now live the action-packed adventure and experience every jolt, rumble and jostle as D-BOX's Motion technology captures moviegoers and makes them a part of the onscreen action.

D-BOX Technologies will debut its Motion Systems at two new movie theatres during its second feature film release – Theatres at Mall of America in Bloomington, MN. and Galaxy Highland Theatres in Austin, TX. Seats are equipped with the company's Motion technology and powered by D-BOX Motion Effects that correspond perfectly with the action taking place onscreen.

"We are thrilled to launch our Motion Systems in two new major U.S. markets," stated President and CEO of D-BOX Technologies, Claude McMaster. "D-BOX Motion technology offers a completely, realistic immersive experience. Moviegoers will feel as though they are right there, in the movie and what better film to live the action than *Terminator*. We're excited about this new movie and we look forward to announcing future titles."

Four movie theatres in the United-States will feature *Terminator Salvation* with the D-BOX Motion Systems on May 21. Two new locations include Theatres at Mall of America and Galaxy Highland and Mann Chinese 6 Theatre in Hollywood and UltraStar Cinemas in Surprise Arizona, which successfully debuted their D-BOX Motion Systems in April.

About D-BOX

D-BOX Technologies designs and manufactures leading edge high-technology motion systems mainly suited to the needs of the entertainment industry. With its unique, patented technology, D-BOX MOTION CODE™ uses motion codes specifically programmed for each film, TV program or video game, which are sent to a motion generating system integrated within either a platform or a seat. The resulting motion is perfectly synchronised with all onscreen action, creating an unmatched realistic, immersive experience. To date, D-BOX MOTION CODE™ is available on more than 850 titles. Accordingly, many prominent Hollywood studios have started embedding D-BOX MOTION CODE™ on selected high definition Blu-ray™ releases. By reaching agreements with the leaders of both the motion picture and gaming industries, D-BOX's award-winning motion technology is gradually proving itself as a new global standard in the entertainment world.
