

FOR IMMEDIATE RELEASE

**D-BOX Motion Code™ to be Featured with New Line Cinema's
A Nightmare on Elm Street, in Theatres April 30**

Longueuil, Quebec (April 12, 2010) – D-BOX Technologies Inc. (*DBO.A* on the TSX Venture Exchange), a leader in innovative motion technology for the entertainment industry, announced today another agreement with movie studio giant Warner Bros. Pictures to feature D-BOX Motion Code™ with the soon-to-be-released thriller, *A Nightmare on Elm Street*, in theatres April 30.

“This new release marks our seventh agreement with Warner Bros. Pictures,” stated Claude Mc Master, Chief Executive Officer of D-BOX Technologies. “We are very excited to continue to add different genres of films and with the addition of this cult classic, movie fans worldwide will now have the opportunity to bring their emotion level to another dimension by watching the film with our technology.”

Freddy Krueger (Jackie Earle Haley) returns in "A Nightmare on Elm Street", a contemporary re-imagining of the horror classic. A group of suburban teenagers share one common bond: they are all being stalked by Freddy Krueger, a horribly disfigured killer who hunts them in their dreams. As long as they stay awake, they can protect one another...but when they sleep, there is no escape.

A Nightmare on Elm Street is based on characters created by Wes Craven in the eponymous 1984 sleeper, horror hit. The film is produced by Platinum Dunes' Michael Bay, Andrew Form, and Brad Fuller, whose company has enjoyed tremendous success with a host of re-imagined horror franchises including *Friday the 13th*, *The Texas Chainsaw Massacre*, and *The Amityville Horror*.

About D-BOX

D-BOX Technologies designs and manufactures leading edge high-technology motion systems mainly suited to the needs of the entertainment industry. With its unique, patented technology, D-BOX Motion Code™, uses motion effects specifically programmed for each film, TV series or video game, which are sent to a motion generating system integrated within either a platform or a seat. The resulting motion is perfectly synchronized with all onscreen action, creating an unmatched realistic, immersive experience. To date, D-BOX Motion Code™ is available on more than 900 titles.

Accordingly, many prominent Hollywood studios have started embedding D-BOX Motion Code™ on selected high definition Blu-ray™ and theatrical releases. By reaching agreements with the leaders of both the motion picture and gaming industries, D-BOX's award-winning motion technology is gradually proving itself as a new global standard in the entertainment world.

D-BOX is a publicly traded company listed on the TSX Venture exchange under the symbol DBO.A. For further information please see www.d-box.com.
